Alex Carter

Full-Stack Developer · alex.carter@example.com · github.com/alexcarter · linkedin.com/in/alexcarter

PROFILE

Full-stack developer with 5+ years of experience shipping web products end to end.
I care about clean architecture, delightful interfaces and measurable impact.

EXPERIENCE

Senior Full-Stack Developer · Nova Labs · 2023 - Present
Led the rebuild of the core SaaS dashboard (React, Next.js, PostgreSQL), cutting page load times by 58% and lifting weekly active usage by 23%. Mentor to 3 juniors.

Full-Stack Developer · Brightline Studio · 2021 - 2023
Delivered 12 client projects (e-commerce, fintech, education) with TypeScript, Node.js and cloud-native deployments on AWS.

Frontend Developer · PixelForge · 2019 - 2021
Built accessible, responsive UIs and a shared component library used by 4 teams.

PROJECTS

DevPulse - real-time team analytics platform (2.1k GitHub stars)
PathFinder - AI study planner used by 8k students · ChartCraft - open-source SVG chart kit

SKILLS

TypeScript · React / Next.js · Node.js · PostgreSQL / Prisma · Tailwind CSS
Python · Docker · AWS · CI/CD · Testing (Vitest, Playwright)

EDUCATION

B.Sc. Computer Science · University of Technology · 2015 - 2019
AWS Certified Developer - Associate · Google UX Design Certificate
